

Exhibit A

Exhibit A***Objections To The Plan Modification Motion Of Delphi Corporation And The Affiliate Debtors******Organized By Nature Of Objection***

OBJECTION DOCKET NO.	OBJECTION ASSERTED	RESOLUTION, RESPONSE, OR PROPOSAL
Objections To DIP Transfer (Consensual Foreclosure)		
1. 16895	Asserts that the Modified Plan is not confirmable because, as required by § 1129(a)(9), the DIP Lenders will not be paid in full in cash and because the DIP Lenders do not consent to such treatment.	Premature. Collective Action Permits Satisfaction. The Modified Plan contemplates full satisfaction of the DIP Claims through the DIP Transfer described in the Supplement. Pursuant to the DIP Transfer, the claims of the DIP Lenders will be satisfied if the Required Lenders consent to such treatment, which is the sole requirement under the terms of the DIP Credit Agreement. Collective Action Permits Satisfaction. A credit bid is inconsistent with a private sale but if a party provides an unsolicited offer, which includes a credit bid, the Debtors will continue to act in accordance with their fiduciary duties in evaluating any potential transaction.
2. 16897	Objects to the Modified Plan on the basis that it does not provide secured creditors an opportunity to credit bid.	Collective Action Permits Satisfaction. Under Section 1129(a)(9), because the DIP Lender claims will be satisfied pursuant to the DIP Transfer, section 1129(b) is inapplicable.
3. 16895	Objects to the Modified Plan on the basis that it is not confirmable under the standards of 1129(b).	Objections Related To Value Of Recoveries
4. 16900, 16907	Asserts that the Supplement does not contain adequate information regarding the likely amount of recovery to unsecured creditors or when such recovery would actually be received.	Adequate Information Provided. The Supplement provides ample disclosure regarding potential recoveries for unsecured creditors. The request for additional information is not necessary for a hypothetical reasonable investor to make an informed decision about whether the recoveries provided to general unsecured creditors under the Modified Plan would be better than the recoveries provided under the Debtors' hypothetical liquidation analysis attached to the Supplement as Appendix C.
Pension-Related Objections		
5. Schedule 1	The Debtors' settlement with the PBGC should not be approved and the Delphi Salaried Pension Plan should not be terminated, but should be assumed by GM.	Adequate Information Provided. The Debtors have provided adequate disclosure regarding the treatment of the Delphi Salaried Pension Plan. While the defined benefit programs were to be assumed under the Confirmed Plan, the salaried and subsidiary plans are no longer capable of assumption because of the deterioration of the capital markets in 2008 and 2009, and accordingly such plans may be involuntarily terminated by the PBGC.

		OBJECTION DOCKET NO.	OBJECTION ASSERTED	RESOLUTION, RESPONSE, OR PROPOSAL
6.	16893, 16900		Asserts that the Supplement does not contain adequate information regarding the disposition of the hourly pension plan or the PBGC Settlement.	Adequate Information Provided. The fact that a settlement with the PBGC has not been achieved but must be achieved to consummate the modifications to the Confirmed Plan is fully disclosed in the Supplement. In addition, the Debtors expect to file the PBGC Settlement Agreement by the Plan Exhibit Filing Deadline.
7.	Schedule 1		The transactions proposed in the Master Disposition Agreement do not equitably treat the employees or former employees covered under the Salaried Pension Plan.	Best Transaction Available. The transactions with Platinum and GM are the best and only viable transactions presented to the Debtors since the Plan Investors failed to close on April 4, 2008. The transactions contemplated by the Modified Plan offer the most likely way to maximize value for the Debtors and all of their stakeholders. The Debtors will continue to act in accordance with their fiduciary duties with respect to any other potential transactions that may arise.
Other Disclosure Related Objections				
8.	16898, 16904		Asserts that the Supplement does not contain adequate information regarding the ongoing Plan Investor litigation.	Adequate Information Provided. The Debtors believe their disclosure is sufficient but will include certain language proposed by the Plan Investors.
9.	16900		Asserts that the Supplement does not contain adequate information regarding (i) Parnassus' potential future contributions and obligations to Delphi's businesses and (ii) the return GM would receive on account of its loan to Parnassus.	Adequate Information Provided. The request for additional information is not necessary for a hypothetical reasonable investor to make an informed decision about whether the alternative proposed in the Modified Plan provides recoveries equal to or better than what such creditors would receive under the Debtors' hypothetical liquidation analysis.
10.	16903		Asserts that the Supplement does not contain adequate information regarding the Debtors' valuation of the consideration the Collective would receive under the Modified Plan.	Adequate Information Provided. The Supplement is not required to contain such information under section 1127, which incorporates section 1125 of the Bankruptcy Code, because the DIP Lenders are not voting on the Modified Plan. In the alternative, such information may be made available to the DIP Lenders under the terms of the Protective Order (Docket No. 16647).
11.	16900		Asserts that the Supplement does not contain adequate information regarding the process used to select Platinum as the purchaser, including whether the Debtors and Treasury refused to engage in discussions with other potential purchasers.	Adequate Information Provided. The request for additional information is not necessary for a hypothetical reasonable investor to make an informed decision about whether the alternative proposed in the Modified Plan provides recoveries equal to or better than what such creditors would receive under the Debtors' hypothetical liquidation analysis.
12.	16907		Asserts that the Supplement does not contain adequate information regarding whether the Debtors will pay Wilmington Trust's fees and expenses.	Supplement To Be Modified. Absent a settlement, the distribution to Senior Noteholders will be subject to the Indenture Trustee's liens. The Debtors will provide disclosure of this possibility in the Supplement.

	OBJECTION DOCKET NO.	OBJECTION ASSERTED	RESOLUTION, RESPONSE, OR PROPOSAL
13.	16896	Asserts that the Supplement does not contain adequate information regarding payment of postpetition amounts owed under prepetition contracts that are not yet due and payable on June 1, 2009, or at the time of assumption and assignment to GM or Parnassus.	<p>Objection Lacks Merit. Contrary to Autocam's assertion, parties are not required to file administrative expense claims for "[alny claim for postpetition goods and services delivered to the Debtors prior to June 1, 2009 that are not yet due and payable pursuant to the applicable contract terms." In addition, the procedures for assuming and assigning certain contracts to the applicable buyer are set forth in the Modification Procedures Order and Modified Plan and will provide counterparties with an opportunity to object to the assumption and assignment, but not to the previously established cure amount. Finally, the Debtors are paying their postpetition obligations in the ordinary course of business and therefore there is no need for procedures to assert postpetition cure amounts. Counterparties could also file administrative expense claims under the Modification Procedures Order and Modified Plan.</p> <p>Objections To Administrative Claims Bar Date</p>
14.	16903	Asserts that the Supplement does not contain adequate information regarding proposed procedures for the administrative expense claim bar date insofar as they exempt Intercompany Claims.	<p>Objection Lacks Merit. The Debtors do not need to file claims against themselves to be able to track intercompany claims.</p> <p>Other Modified Plan Related Objections</p>
15.	Schedule 1	The Debtors should continue to make severance payments.	<p>Premature. At the Final Modification Approval Hearing, the Debtors will demonstrate that they will satisfy all administrative claims under the applicable standards.</p> <p>Resolved. The Debtors have revised the proposed Modification Procedures Order accordingly.</p>
16.	16897	Asserts that the Debtors should not be permitted to assume and assign contracts until consummation of the Master Disposition Agreement.	
17.	16900	Asserts that the Debtors are not pursuing their legally available remedies against GM.	<p>Adequate Information Provided. The Supplement adequately discloses the approval of the Amended GSA and Amended MRA. This objection is not relevant to the relief sought in the Plan Modification Approval Motion.</p>

	OBJECTION DOCKET NO.	OBJECTION ASSERTED	RESOLUTION, RESPONSE, OR PROPOSAL
		Resolicitation Objections	
18.	16900, 16907	Object to maintaining the November 26, 2007 record date for resolicitation.	<p>Section 1127 Is Clear. Section 1127(d) of the Bankruptcy Code provides that "[a]ny holder of a claim or interest that has accepted or rejected a plan is deemed to have accepted or rejected, as the case may be, such plan as modified, unless, within the time fixed by the Court, such holder changes such holder's previous acceptance or rejection." Thus, if a holder of a claim or interest does not vote to accept or reject the Modified Plan by the Voting Deadline, that holder's prior vote would count as it was originally cast, but only to the extent that such holder is entitled to vote on the Modified Plan. Furthermore, the legislative history of section 1127(d) notes that the purpose of section 1127(d) is to "simplif[y] [the] modification procedure by deeming any creditor or equity security holder that has already accepted or rejected the plan to have accepted or rejected the modification." H.R. Rep. No. 95-595, at 411 (1977), <u>reprinted</u> in 1978 U.S.C.C.A.N. 5963, 6367.</p> <p>The plain language of section 1127 and 1127(d) applies on its face to these circumstances and clearly contemplates material modifications to a plan, such as the Modified Plan. The objectors provide no statutory or reasoned case law for not applying section 1127(d) as drafted. The statute is clear and should be applied.</p>

	OBJECTION DOCKET NO.	OBJECTION ASSERTED	RESOLUTION, RESPONSE, OR PROPOSAL
19.	16900	Object to the Debtors' request that any class in which no creditor votes on the Modified Plan be deemed an accepting class.	<p>Premature. This objection is premature because it remains to be seen whether any class will fail to return its ballots. Several courts have held, however, that if no claim or interest holder of a particular class votes either to accept or reject the plan, then that class would be deemed to have accepted the plan. <u>See Heins v. Ruti-Sweetwater, Inc.</u> (In re Ruti-Sweetwater, Inc.), 836 F.2d 1263, 1266-67 (10th Cir. 1988) (holding that nonvoting class was deemed to have accepted plan for purposes of 11 U.S.C. §§ 1129(a)(8) and 1129(b) and noting that holding otherwise would encourage creditors to "sit idly by," effectively "plac[ing] all reorganization plans at risk in terms of reliance and finality"); <u>In re Philadelphia Comm'n Corp.</u>, 368 B.R. 140, 261-62 (Bankr. S.D.N.Y. 2007) ("Regarding non-voters as rejecters runs contrary to the Code's fundamental principle, and the language of section 1126(c), that only those actually voting be counted in determining whether a class has met the requirements . . . for acceptance or rejection of a plan . . ."); <u>In re Campbell</u>, 89 B.R. 187, 188 (Bankr. N.D. Fla. 1988) ("[T]hose impaired classes which failed to vote and did not object to confirmation of the plan are deemed to have accepted the plan for the purposes of meeting the requirements of § 1129(a)(8) of the Bankruptcy Code."); but see <u>In re Friese</u>, 103 B.R. 90, 92-93 (Bankr. S.D.N.Y. 1989) (holding that "the court cannot deem an impaired class to have accepted a plan if no creditors in the class have voted.").</p> <p>Incorrect. The Debtors will resolicit the votes of all general unsecured creditors but will apply section 1127(d) when counting the votes of such creditors.</p>
20.	16900	Asserts that the Debtors do not propose to resolicit the votes of general unsecured creditors and requests that the Court order a full resolicitation.	The Creditors' Committee states that the Supplement should contain language prepared by the Creditors' Committee indicating its opposition to the Modified Plan.
21.	16900		The Debtors do not oppose the inclusion of a letter from the Creditors' Committee in the resolicitation materials explaining why creditors should not accept the distributions under the Modified Plan in light of the Hypothetical Liquidation Analysis attached as Appendix C to the Supplement which demonstrates that in a liquidation, such creditors would receive no recovery.

	OBJECTION DOCKET NO.	OBJECTION ASSERTED	OBJECTION TO SECTION 363 SALE ALTERNATIVE	RESOLUTION, RESPONSE, OR PROPOSAL
22.	16895, 16897, 16903	Asserts that the Court should adopt auction and bidding procedures for a sale pursuant to section 363 of the Bankruptcy Code.	Private Sale Permissible. The transactions with Platinum and GM constitute a private sale under section 363 and are the best and only viable transactions presented to the Debtors since the Plan Investors failed to close on April 4, 2008. Private sales are permissible in this and other districts. See S.D.N.Y. Gen. Order 331; see, e.g., order approving private sale in <u>In re Hoop Holdings LLC</u> , No. 08-10544 (Docket No. 319) (Bankr. D. Del. Apr. 23, 2008).	As described in the Debtors' reply, the Debtors will receive \$250 million of interim financing from GM subject to meeting certain conditions, including receiving approval of the Modification Procedures. No other available transaction will provide the Debtors with this required financing.
23.	16895, 16903	Asserts that the Master Disposition Agreement cannot be consummated because DIP Lenders will not consent to sale.	Premature. This objection is premature because Required Lender consent is not required until closing. In addition, this objection lacks merit because although the Debtors need Required Lender consent to consummate the Modified Plan, the Debtors believe that they can proceed with the Sale Transactions pursuant to section 363 without DIP Lender consent.	
24.	16903	Asserts that a private 363 sale is an improper sub rosa plan.	Premature. This objection is premature because the Debtors have proposed the transaction as part of the Modified Plan as described in the Supplement.	

	OBJECTION DOCKET NO.	OBJECTION ASSERTED	OBJECTIONS FILED IN OCTOBER 2008 IN RESPECT OF THE ORIGINAL PLAN MODIFICATION MOTION	RESOLUTION, RESPONSE, OR PROPOSAL
25.	14340	The proposed Cure Claim Procedures for Other Executory Contracts and Other Unexpired Leases that the Debtors are assuming under the Modified Plan improperly require the claimant to have filed a cure claim by March 10, 2008 in order to receive a cure claim. Liquidity Solutions, Inc. asserts that the Debtors should be required to provide a list of Other Executory Contracts and Other Unexpired Leases that the Debtors are assuming that relate to LSI.	Objection Lacks Merit. LSI's objection has no merit because (i) res judicata precludes LSI from attacking procedures approved by this Court in the Confirmation Order and (ii) LSI has no authority to interfere with contracts between the Debtors and their contractual counterparties. Under the Confirmed Plan, Article 8.1(a) established the executory contracts and unexpired leases to be assumed by the Debtors and Article 8.2(b) set forth the procedures for determining cure amounts for Other Executory Contracts and Other Unexpired Leases. The Modified Plan does not add new executory contracts and unexpired leases to be assumed under Article 8.1(a), nor does it modify the procedures for determining cure amounts on Other Executory Contracts or Other Unexpired Leases.	
26.	14338, 14339	Individuals creditors object to the treatment proposed under the modifications to the Plan as proposed on October 3, 2008, requesting different treatment than that which was provided for in the modifications.	Premature. The Supplement provides the treatment provided for under the Modified Plan and claimholders will have the opportunity to vote to accept or reject the treatment that the Modified Plan provides.	

<u>DOCKET #</u>	<u>OBJECTING PARTY</u>
14338	Robert Ward
14339	Sheryl Carter
14340	Liquidity Solutions, Inc.
16893	Pension Benefit Guaranty Corporation
